

Remember the pledge drive we held back in November 2020? Individuals and businesses in our community showed their support for a new full-service hospital with a pledge of funds that would be paid when we received our loan approval. We're thrilled to announce that our USDA loan application has been approved, and that the time has arrived to pay those pledges. We will be contacting those who have made pledges, and want to answer many of your questions here.

Can I pay by check?

Of course! You can drop your check off at Wyoming Community Bank, or mail it to us at 202 N Broadway Ave, Riverton, WY 82501.

What if I want to pay online?

That's easy, just use the donate button on our website, rivertonmedicaldistrict.com. You'll be able to use a credit card, Venmo, Apple Pay, or PayPal. Please consider paying the credit card processing fees so that we receive 100% of your payment. No platform fees are charged; change the tip amount to \$0 if you'd like to.

How will you use my money?

We are so very grateful for every donation, no matter the amount. We're overwhelmed at the way our community has come together to support this effort to bring a full-service hospital back to Riverton. Your money will be used for the equity required for our loan.

What if I don't remember how much I pledged?

We will be contacting all those who pledged soon. Get ahold of us if you need to by texting or calling (307) 855-7300, emailing rivertonmedicaldistrict@gmail.com, or sending us a direct message on our social media accounts.

I didn't make a pledge, can I still help out?

Absolutely! We'd love your help, and our fundraising efforts will be ongoing as we move forward in this project.

Is my donation tax-deductible?

Riverton Medical District is a 501(c)(3) nonprofit organization, so your donation is tax-deductible. If you donate online, you will receive an email right away with a receipt and all of the necessary tax information. If you donate by check, we will mail you a confirmation letter if the amount is \$250 or more.
